

New-York Daily Tribune

WEDNESDAY, SEPTEMBER 24, 1862.

TO CORRESPONDENTS.

No notice can be taken of anonymous communications. Whatever is intended for insertion must be authenticated by the name and address of the writer—not necessarily for publication, but as a guarantee for his good faith. We cannot undertake to return rejected communications. All business letters or notices should be addressed to "THE TRIBUNE," New-York.

TO ADVERTISERS.

THE WEEKLY TRIBUNE has the largest circulation of any newspaper in this country, if not in the world. It is taken by the enterprising farmers, mechanics, merchants, and manufacturers throughout all the loyal States; and business men in this city who desire to reach these classes can do so quite effectively by advertising in THE WEEKLY TRIBUNE. Price \$1 a line. Advertisements for this week's issue must be handed in to-day.

NEWS OF THE DAY.

THE WAR.

—The only information from Major-General McClellan's headquarters transmitted to us, up to 1 o'clock this morning, by Associated Press dispatch, informs us that all is quiet in Major-General McClellan's army.

—We have extracts from Richmond papers of Saturday, giving Rebel accounts of the fighting in Maryland, and the surrender of Harper's Ferry by the Union forces; also, containing a dispatch from Gen. McKown, commanding the Rebel forces in East Tennessee, dated Knoxville, Sept. 19, stating that the Union forces evacuated Cumberland Gap on Thursday night, the 18th inst., and that Gen. Stevenson was pursuing them. The Rebel papers do not regard this news as favorable, as it was supposed by them that Gen. Morgan had been completely hemmed in. A dispatch from Mobile, dated the 16th inst., says that Gen. Price has driven the enemy in the direction of Eastport, capturing \$100,000 worth of stores. Gen. Price was still in pursuit of the Union forces, and only seven miles behind them.

—The Herald is unfortunate in its slow army correspondence. Complaints have been made at Gen. McClellan's headquarters of most flagrant and ridiculous errors, extending as far back as the battle of Gainesville, and reaching up to last Wednesday's battle. The latter, for example, is embellished with the burning of a bridge by the Rebels and the rebuilding of it by Burnside's men; whereas, in fact, no bridge was either rebuilt or burned. In the Sunday's fight at South Mountain, the 45th Pennsylvania is given as the 45th New-York; and all things are most beautifully mixed.

—Gov. Morgan has issued orders for a draft in the State of New-York. The draft is to be made on the 10th of October prox., for 40,000 men. The principal drafting will take place in this city. Kings, Queens, and Westchester Counties. The number required from New-York City is about 8,000. There will be a camp of rendezvous established at East-New-York for the drafted militia, under the command of Brigadier-General Richard Basted.

—There is something bewildering in the statements from Washington and Fortress Monroe with regard to exchanged prisoners. After innumerable hundreds and thousands heretofore reported as exchanged, we have notice that Gen. Dix's aid has effected an exchange of ten thousand rank and file and three hundred officers. These did not include Gen. Pope's officers, but the story is that they will be exchanged this week.

—A dispatch from Harrisburg says we have good reason to believe that the Rebel army has not entirely left Maryland. They are said to be in the neighborhood of Williamsport in considerable number, and that heavy skirmishing is still going on there on both sides of the river.

—We have a dispatch from Harrisburg saying there is good reason to believe that for Colonel Miles's surrender of Harper's Ferry "the rebellion would have undoubtedly received its death-blow." Very possibly.

—The first official report from the battle of Antietam is that of Gen. Kimball, who had a brigade in French's division of Sumner's fighting corps. He states his loss at 121 killed and 510 wounded.

GENERAL NEWS.

—The Royal mail steamship Scotia, from Liverpool Sept. 13, and Queenstown Sept. 14, arrived here yesterday morning, bringing two days later news. The latest news from America was regarded as so unfavorable that some of the papers which are hostile to our cause began to renew the clamor for intervention. Excitement continues to increase in the English market for the substitutes of cotton, especially for jute, which, according to the new method for its treatment, can be spun on cotton machinery, and can easily be obtained in great abundance. It is believed that extreme Italian revolutionists in London have formed a new plot against the life of Louis Napoleon. It is expected that an amnesty will be granted to Garibaldi and his followers, and that in case Rome is not evacuated by France a new revolution will break out.

—Advices from Key West represent that yellow fever is on the increase at that place. The frigate St. Lawrence, flagship of Com. Lardner, now in port, has suffered greatly, having lost her paymaster and his clerk; also, the surgeon's steward, and the carpenter and nineteen sailors and marines. On the morning of the 13th inst. there were 46 cases on board. The U. S. steamer Huntsville remains there, and in spite of disinfectants, cases of fever still continue. On the 12th, her Chief Engineer died after an illness of 30 hours. The Huntsville has lost three officers and four men.

—We hear from Syracuse that there is a fair probability that Gen. Wadsworth will be today nominated for Governor. Gen. Dix is next in strength, and the Hon. Reuben H. Fenton of Chautauque has active and earnest supporters. The President's proclamation is received with great enthusiasm, and will probably form the substratum of the State platform.

—The steamship Star of the South, from Beaufort on the 20th, arrived here yesterday morning, consigned to Col. D. D. Tompkins, U. S. Quartermaster. She brings 53 Rebel prisoners, consisting of two Captains and 55 privates, under charge of Capt. Wm. Pratt of the 24th Massachusetts Volunteers. These prisoners were taken at the recent battles at Washington, N. C.

—The Brooklyn riot case has come to an end by default, or what is represented as such. It is said that the case on the part of the people was not represented, and after several adjournments the Justice finally dismissed the defendants. This is the riot in which the negro workmen in the tobacco factory were mobbed by the sweet populace in that region.

—A man from Charleston says that the six hundred and fifty-two houses burned in the great fire have as yet been replaced by only ten small brick stores. One-third burned, one-third deserted, and the other third inhabited only by the poorer classes, Charleston is draining the "poisoned chalice" she prepared for the country's ruin.

—The mails for Europe, by the Cunard steamship Australasian, will close this afternoon at 12 o'clock.

—We have, by way of Fortress Monroe, some unim-

portant extracts from Richmond papers. Wild as they are, they will doubtless be read with undevoted attention.

STATE OF THE MARKETS.

The market is steady, with the usual advance in those roads, which are in demand on increased earnings. The President's Proclamation, the event of the age is being thoroughly digested in the Stock market. At first there was some hesitation, prices yielding a fraction from the opening sales; but, toward the close of the call, particularly in Western Shares, a strong feeling prevailed with improved prices. Relief is universal at this moral settling of rebellion, loyalty and treason are now defined, the army is regenerated. The Government list was dull, but steady, the only change occurring in Demand Notes, which rose 1/2 cent, selling at 115; State securities were also firm. Gold, under apparent speculative orders, went up 1/4 cent, to 117 1/2. Immediately after the session the market was somewhat firmer; operators, who had been waiting to get the general sentiment relative to the Proclamation, appearing satisfied. There was considerable "changing of hands" in stocks, old parties getting out and new ones coming in. At the Second Board the market was active and strong. The buyers were numerous under advice from Washington of a vigorous prosecution of the war. The market for foreign Exchange has been strong, with a fair amount of business. Freighters are firm with moderate offers. The business of the Sub-Treasury was Receipts \$1,618,263 44—for Customs, \$7,070,000. Payments, \$1,017,570 22. Balance, \$4,592,550 53. The business in Custom House Demand Notes has been very active, and the quotations advanced to 115. This price, however, offered at large amounts, and at the close they were brought at 115. The supply is held very strongly, as the weekly consumption of the Custom House is rapidly absorbing the amount dealt. One Year Certificates have been sold largely at 90 1/2, and are firm. The 7-30 1/2 cent Notes are 104 1/2. In money matters there is no change. The supply on call is pressing on borrowers at 4 1/2 per cent, with some transactions at 3 1/2 per cent. There is very little doing in the discount houses on account of the scarcity of first-class paper. This description is pressed freely at 4 1/2 per cent. The receipts and stock of Flour are alike moderate, and the market for Western and State is less active, owing to the poor assortment offering, and the firmness of holders. The medium and better grades are the most sought after. The market for foreign Exchange has been strong, with a fair amount of business. Freighters are firm with moderate offers. The business of the Sub-Treasury was Receipts \$1,618,263 44—for Customs, \$7,070,000. Payments, \$1,017,570 22. Balance, \$4,592,550 53. The business in Custom House Demand Notes has been very active, and the quotations advanced to 115. This price, however, offered at large amounts, and at the close they were brought at 115. The supply is held very strongly, as the weekly consumption of the Custom House is rapidly absorbing the amount dealt. One Year Certificates have been sold largely at 90 1/2, and are firm. The 7-30 1/2 cent Notes are 104 1/2. In money matters there is no change. The supply on call is pressing on borrowers at 4 1/2 per cent, with some transactions at 3 1/2 per cent.
